

About us

As current educators with over 30 years combined experience working in schools, we understand the complexities of organising an overseas educational experience for your students. We know because we still do it! Balancing your teaching role with your commitment to providing the best value for money experience for your students and parents is difficult. That's why we specialise in working with schools. For us the need to maximise educational outcomes is paramount. That's where we differ from other tour providers.

The e3 Global Adventures philosophy:

1. Educate 2. Experience 3. Empower
Amazing experiences – with life changing outcomes

Remember, we provide all the support you need to get your school travelling. Contact us today to start the adventure!

e3 global adventures
educate . experience . empower

Make the world your classroom!

Cambodia, Vietnam, Laos, Thailand...
amazing educational travel adventures for schools...adventures that don't cost the earth! And we're here to help – every step of the way!

Your ideas turned into reality with e3 Global Adventures

- All your learning goals incorporated into a personalised itinerary that is jam packed with educational and social meaning.
- Minimise the organisational load associated with launching an overseas learning experience – from seeking senior management support to student recruitment and meeting departmental requirements – we are there to assist every step of the way.
- Develop an educational ethos around the entire project. It's not about 'the trip of a lifetime'. It's about encouraging our young people to take an interest in their place in the world and empowering them to realise their full potential.

Learning for life

- Learn in the classroom and then bring that learning to life – from visiting the Temples of Angkor to the tunnels at Cu Chi.
- Meaningful and ethical projects with a social justice focus – all our trips incorporate a community service project which will give your students the opportunity to work alongside local communities, gaining understanding of different cultures, values and ways of life.
- Construct food gardens in Luang Prabang, teach at a school for street kids in Siem Reap, rebuild a village school in the Mekong Delta – the possibilities are endless.

Your trip

- We use only the best travel service providers, providers who specialise in school group travel.
- Fully guided – from the moment you arrive at your entry airport to the time you leave, your tour leader will be with you every step of the way.
- Fully inclusive – from visas to insurance, flights to accommodation.
- Affordable and excellent value for money – we aim to give more schools and their students the chance to travel!

Engage your community

- Transform your school trip into a whole community experience.
- Strengthen your school-community partnerships and connections.
- Engage your school, parent and community bodies in your project and use their support to secure maximum fundraising commitment.
- Develop your own student social justice movement for global change within your school and link in to the community.
- Empower your students to become active global citizens and continue their work for good.

Testimonials

“ I can't speak highly enough of e3 Global Adventures. Both of my children have travelled on school trips with them – they returned so excited about what they had seen and achieved that I signed up for a group tour with e3. They are very well organised, have excellent country knowledge and offer fantastic cultural experiences. The tour providers they engage are wonderful – always happy to help, full of local knowledge and always aware of the needs of the group. I can't wait to go on my next trip with them! ”

– Tracey, parent and group tour participant

“ I went to Vietnam and Cambodia in 2010 as part of a school group. It was an experience that changed my life. Before I went I thought I wanted to be a beautician – it was something I was interested in. Now I'm studying towards becoming a teacher. I want to go back and work in the communities I visited – I'm totally committed to going back and helping. ”

– Singrid, student
